### Explanation of Class Curriculum

**Creative Movement (Level 1/2)** — Students will be exposed to Ballet Basics and different types of movement accompanied by music. As well as dancing, students are engaged in 'sing-alongs' and usage of basic instruments. This is a great introductory class for youngsters to get accustomed to a class room setting, participating in group activities, sharing with other students, and following instructions. This class is for students 3 to 5 years of age.

**Ballet/Tap/Jazz (Level 3 thru Level 4)** — Students will be exposed to three different forms of dance during this session. They will be taught Ballet technique, positions and steps that will aid them in all forms of dance. Jazz will increase their expression of movement, coordination, and musicality. Tap will enhance their rhythm and timing, it is danced every class for an allotted amount of time. Ballet and Jazz are alternated weekly. (ex. Week-one will consist of Ballet/Tap. Week-two will consist of Jazz/ Tap.) Level 3 is for dancers in Kindergarten to 2nd grade. Level 4 is for dancers in 2nd to 4th grade.

**Hip Hop** — This is a beginner/intermediate class to engage students in an increasingly popular form of jazz; Hip Hop. Widely viewed on TV programs, movies, and music videos, Hip Hop is sometimes known as street-dancing. We incorporate music of Hip Hop, Rap, and Pop genres. This class is available for students that are Kindergarten age and older.

**Level 5/6** — These students are exposed to multiple areas of dance including Ballet, Tap, Jazz, & Lyrical . A rotation of this curriculum will result in very well rounded dancers with an appreciation for all forms of dance. Even though this level is extensive, beginners are welcome! We have experience maintaining a balance between beginner and advanced students in this age range.

**Pointe & Pre Pointe** — This is a ballet technique class for students that are training to wear, or are already dancing in pointe shoes. Pointe class consists of barre work as well as floor work. Strength training and conditioning is required to obtain the necessary muscle functions of dancing 'en pointe.'
